

ZENITH FIREARMS®

STANDARD PRODUCTS

From its headquarters at the foot of Virginia's Blue Ridge Mountains, **Zenith Firearms** proudly imports and sells thousands of firearms to Americans each year. We admire men like Frederick Douglass, who put our First and Second Amendments to work when he published this statement in his newspaper in 1854:

“The true remedy for the Fugitive Slave Bill is a good revolver, a steady hand, and a determination to shoot down any man attempting to kidnap.”

While many firearms available today would have served that purpose adequately, for meeting a wide range of modern man's self-defense needs, we are partial to our own Z-series of roller-delayed blowback firearms.

Manufactured by MKE on original equipment, Zenith's standard product line consists of its best-selling semi-automatic pistols, their brace-equipped and short-barreled rifle variants, and periodically available full-length rifles and carbines.

9MM

CUSTOM SHOP

Zenith Firearms offers full-service gunsmithing and comprehensive support to all users of the MP5, HK33, and G3, inclusive of their variants and foreign factory-produced equivalents. From periodic maintenance and tuneups to minor repairs and enhancements, barrel replacements, complete overhauls, and custom work, Zenith can make even your most worn-out roller-delayed blowback firearms function as they once did, and modernize them for the 21st century.

Our Custom Shop also effects conversions of MKE pistols to U.S.-barreled rifles. Examples include the 16.1-inch-barreled Z-300 Rifle in 300 Blackout, and the 12.7-inch-barreled Z-33K, both made from an MKE-origin Z-43P pistol.

SELECT FIRE

Roller-delayed blowback firearms are known for their reliability under the most extreme conditions. Special operations personnel have employed them for decades in the harshest environments on the planet, and in the most demanding crisis situations. **Zenith Firearms'** select-fire products deliver the exact performance that veteran users have come to expect, and are available configured to meet your specific mission requirements.

Whether you're working on a Protective Services Detail, protecting your family against a home invasion, or engaging targets at intermediate ranges in open terrain, Zenith has a select-fire weapon that is appropriate for your task.

FULL AUTO

Zenith Firearms is a family-owned U.S. corporation based in Afton, Virginia. We work closely with the people of MKE in Turkey to bring the legendary reliability and design of roller-delayed blowback firearms to our liberty-minded fellow Americans.
